Education

Pillai Hoc College Engineering & Technology

Bachelor of Engineering - Computer Engineering

JULY. 2020 – JUNE 2024

CGPA - 8.83/10

Relevant Coursework

- Data Structures
- Operating Systems
- Artificial Intelligence
- Computer Networks
- Database Management System
- Object Oriented Programming

Experience

CareerPhi

Sep 2024 - present

Full Stack developer Intern

Remote

- Contributed to the development of a real-time application using the MERN stack, managing user data with MongoDB.
- Integrated Cloudinary for efficient media storage and retrieval, enhancing application performance and reducing load times by 5%.

YHills

Jun 2023 – Aug 2023

Artificial Intelligence Intern

Remote

- Built and deployed machine learning models using advanced algorithms, boosting prediction accuracy by X%.
- Collaborated with cross-functional teams to identify key data patterns and optimize model performance, delivering actionable insights for business growth.

Sahu Technologies

Dec 2022 - Feb 2023

Android App Developer Intern

Remote

- Enhanced the frontend of a mobile application for Android using Java and Google Firebase for seamless user data management.
- Utilized Android Studio for testing and visualizing the application across both Android platforms.

Sahu Technologies

Jun 2022 – Aug 2022

Web Development Intern

Remote

- Designed a mobile-responsive e-commerce interface using HTML, Tailwind CSS, JavaScript, and MySQL, improving user accessibility across devices.
- Implemented a secure user authentication system, improving data security and user trust, while optimizing front-end performance to reduce page load time by 10%.

Projects

NETFLIX CLONE | MongoDB, Express, React, Node.js | [Github](#)

December 2024

- Enhanced the functionality of a Netflix clone using React, Redux for state management, and Tailwind CSS for an optimized, mobile-responsive user interface, integrating TMDB API for real-time movie data.
- Improved backend security by implementing bcrypt for password hashing and JWT for user authentication in a Node.js and Express-based RESTful API for movie data and user management.

Daily Blogs APP | React, Redux, Tailwind CSS, Appwrite, TinyMCE, HTML-Parser | [Github](#)

November 2020

- I developed a blogging platform with React and Appwrite, enabling users to upload and manage blogs with images, using Redux for state management and TinyMCE for rich text editing.
- I optimized SEO by using HTML-Parser for URL-friendly titles and designed a responsive UI with Tailwind CSS for a seamless user experience.

Technical Skills

Languages: Java, C, JavaScript, Python, SQL, Solidity

Frameworks: React, Node.js, Express.js, Redux, Zustand, Tailwind CSS, HTML, CSS

Tools: Git/GitHub, Docker, PostgreSQL, MySQL, MongoDB, VSCode, IntelliJ IDEA, Eclipse, Android Studio

Platforms: Linux, Windows, AWS

Soft Skills: Event Management, Time Management, Problem Solving, Collaboration, Team Leadership

Training

geeksforgeeks

Jan 2024 – May 2024

Full stack development (MERN) - Front end, Back end

Remote

Leadership / Extracurricular

Coding Club

July 2023 – June 2024

Technical Lead

- Led a team of 20+ members and managed technical aspects for 6+ events.
